HB5262

Good morning,

My name is Marie Kennedy of:
186 Windsorville Rd
2 FL B
South Windsor, CT 06704

This is my first time doing a written testimony, so please forgive me if I fail to follow a certain format or use proper verbiage.

Regarding HB5262 this is complete garbage. Our elections are to be secure and fair. Calling for and allowing mail-in voting undermines the integrity of our elections process and opens the door for repeated fraud. Have we not witnessed the catastrophic results of such a process in past elections?

It has been proven 10 times over of the rampant fraud that occurs with mail-in ballots everything from harvesting ballots, falsified documents and allowing the deceased to cast votes.

It is ludacris to me that this is even being proposed. Voting is to be done in person and with a valid photo approved ID such as a passport, State issued ID or Driver License. Any other way is to be PROHIBITED!!!

Thank you for your time.

Marie Galvan-Kennedy
